

XVIII International Young Researchers Workshop in Geometry, Dynamics and Field Theory

February 21-23, 2024

COURSES

- **María Amelia Salazar** (Universidade Federal Fluminense, Brazil)
“Van Est maps: the relation between the cohomology of Lie groups and the cohomology of Lie algebras”
- **Leonardo Colombo** (Centre for Automation and Robotics CSIC-UPM, Spain)
“Safety-guarantees with data-driven controls based on Gaussian processes for quadrotors UAVs and multi-agent systems”
- **Mats Vermeeren** (Loughborough University, United Kingdom)
“Hamiltonian and Lagrangian perspectives on integrable systems”

SCIENTIFIC COMMITTEE

- **María Barbero**
Universidad Politécnica de Madrid, Spain
- **Soledad Arona**
Escola de Matemática Aplicada, Rio de Janeiro, Brazil
- **Tobias Diez**
Shanghai Jiao Tong University, China
- **Bahman Ghahesifard**
University of California, USA
- **Madeleine Jotz Lean**
Julius-Maximilians-Universität Würzburg, Germany
- **Ramiro Lafuente**
The University of Queensland, Australia
- **Juan Margalef**
Memorial University, Canada
- **Rodrigo T. Sato Martín de Almagro**
Friedrich-Alexander-Universität Erlangen-Nürnberg, Germany

ORGANIZING COMMITTEE

- **Javier de Lucas**
University of Warsaw, Poland
- **Xavier Rivas**
International University of La Rioja, Spain
- **Bartosz M. Zawora**
University of Warsaw, Poland
- **Julia Lange**
University of Warsaw, Poland
- **Adam Maskalaniec**
University of Warsaw, Poland
