Two Postdoctoral Positions in Theoretical Physics

Chair of the Theory of Particles and Elementary Interactions, Warsaw University, invites applications for two postdoctoral positions from experienced researchers in theoretical particle physics and cosmology (research experience less than 10 years after the diploma which gives direct access to doctoral studies in the country in which the diploma was obtained). The appointments will be for 2 months in the calendar year 2009 and the positions are funded by the EU in the framework of Marie Curie Host Fellowships for the Transfer of Knowledge (ToK) Project: "Particle Physics and Cosmology: the Interface".

Research interests of the particle theory group in Warsaw cover a broad range of topics in particle physics, astro-particle physics and cosmology (neutrino physics, lepton physics, B physics, grand unification, supersymmetry, supergravity, inflation, dark matter, dark energy).

Deadline for applications is **November 15th, 2008**. Applications should include CV, list of publications and a brief statement of research interests. Applications should preferably be sent by email to the address

tok.warsaw@fuw.edu.pl

or by regular mail to

Prof. Stefan Pokorski,

Institute of Theoretical Physics, Warsaw University,

Hoża 69,
