

7th Warsaw School of Statistical Physics

26 June – 2 July 2022, Sandomierz, Poland

organized by the Institute of Theoretical Physics, Faculty of Physics, University of Warsaw

Invited courses:

Stéphane Douady Université Paris Diderot, France
Models for Plant Growth

Joseph Indekeu KU Leuven, Belgium
Interfaces and Wetting

Giuseppe Mussardo SISSA, Trieste, Italy
Out of Equilibrium Physics of Classical Field Theories

Daniel Rothman MIT, USA
Earth's Carbon Cycle: Complex Kinetics, Nonlinear Dynamics, and Catastrophic Change

Robert Seiringer IST, Austria
Foundations of Density Functional Theory
